

Simply Practical.

The Hill-Rom® CareAssist® ES Hospital Bed

Hill-Rom.

Enhancing outcomes for patients and their caregivers.

CareAssist® ES Bed: Simply practical.

The CareAssist® ES bed is our foundational Med-Surg bed. We've designed it especially for busy caregivers who need to accomplish a multitude of tasks in a minimum amount of time. A number of one-and-done features distinguish the CareAssist® ES bed as one of the most practical beds available.

Do more with easy, one-step features.

- + Bedside controls offer the Dining Chair® one-button feature
- + Four-corner brake and steer for easy mobility
- + Built-in bed extender lets a single caregiver add length to the bed
- + Line-of-Site® angle indicator lets nurses monitor a patient's head angle at a glance

Protect your patients from skin breakdown.

Led by experienced clinical professionals, our comprehensive Safe Skin® program for the prevention and treatment of skin breakdown helps improve outcomes that are designed to be repeatable and sustainable.

The CareAssist® ES bed contributes toward this effort with its SlideGuard® feature, which helps protect your patient's skin during repositioning by keeping his or her hips in place while the back of the bed elevates.

The bed's open architecture allows you to use almost any commercially available surface, offering maximum flexibility to care for patients at every level of risk for skin breakdown.

The centrally located fifth wheel adds maneuverability to let you steer the bed easily during transport.

**WE DESIGNED THE CAREASSIST® ES BED ESPECIALLY FOR
BUSY CAREGIVERS
WHO NEED TO ACCOMPLISH A
MULTITUDE
OF TASKS
IN A MINIMUM AMOUNT OF TIME.**

CareAssist® ES Bed: Simply Practical.

At Hill-Rom, we understand that Med-Surg caregivers must possess a multitude of capabilities to treat patients effectively. The practical CareAssist® ES bed and its easy, one-step features is especially designed for busy caregivers who need to accomplish a multitude of tasks in a minimum amount of time.

One-button Dining Chair® position enables caregivers to place patient in the chair position while the bed remains at a low height.

Point-of-Care® siderail controls are conveniently located in a central location, on both sides of the bed, where patient and caregiver interaction occurs.

Built-in Bed Extender allows caregivers to easily add length to the bed.

CareAssist® ES Bed: Simply Practical.

The CareAssist® ES bed is designed to make bedside tasks easy and fast. Caregivers can enjoy the benefits of a bed that delivers essential and dependable technologies to meet the fundamental needs of the Med-Surg care setting.

Dual-locking brake casters with an audible "brake not set" alarm that reminds caregivers to secure the bed.

With the battery backup, there's no need to find an outlet when repositioning the bed (high/low position, head-of-bed, knee section and foot angle) during patient transfer.

SlideGuard® bed articulation technology helps support patient positioning.

The Electric Vascular Foot allows the caregiver to raise patient's feet without having to lift the weight of the patient's legs.

SafeView® Alert System keeps staff informed of a patient's bed status.

The CareAssist® ES bed connects to your hospital system to send data to NaviCare® Nurse Call, EMRs or other clinical applications.
