

Hill-Rom®

NP50 Prevention Surface

An economical prevention mattress for daily patient needs

The Hill-Rom non-powered NP50 prevention surface is a high quality and affordable foam mattress that addresses pressure redistribution. This surface, designed for use in acute care and extended care environments, is constructed of high quality, medical grade foam. This lightweight mattress is also durable and reversible from head to foot.

At a glance

- Single density foam prevention mattress
- Fire barrier included in all surfaces
- Lightweight, easy-to-clean, wipeable cover
- Fluid-resistant, leak proof fabric protects the surface from fluid penetration
- Durable ticking accommodates heavy use in a rigorous environment
- Anti-skid bottom helps keep surface in place
- Enclosed design with no protruding parts
- EPA-registered anti-microbial agent in foam to provide additional protection from odor-causing bacteria
- Optional bolster/raised foam perimeter
- Reversible from head to foot
- Articulation cuts allow the surface to conform to the bed frame
- Accommodates weight up to 350 lbs*

* Bariatric versions available, accommodating up to 700 lbs

* Psychiatric versions available
