

## How do I get one?

1. Tell your doctor about the LifeChoice® Activox® POC model you are interested in. If the POC will meet your oxygen needs, ask that the prescription be written specifically for the “LifeChoice Activox Portable Oxygen Concentrator” with the direction “Do Not Substitute.”
2. Contact your local provider, or find one in your area by calling 1.800.220.0977 or by visiting [www.InovaLabs.com](http://www.InovaLabs.com).

Portable  
oxygen that’s  
ready to go  
when you are.

Light.  
Long Lasting.  
Efficient.

## Stay Active

LifeChoice® Activox® 4L is lightweight, reliable and ready to go—for life with no compromises. Designed to be ready when you are—there is no waiting for tanks to fill and no heavy carts to drag around.

## Best-in-Class Portability

LifeChoice® Activox® 4L POC is the ideal portable oxygen therapy for active lifestyles.

## Lightweight and Hands-Free

LifeChoice® Activox® 4L is lightweight and does not require the use of a cart. Plus, it comes equipped with a convertible carry case that allows you to wear the system as a backpack, shoulder bag, waist pack or briefcase. These options empower you to be hands-free so you can complete activities with comfort and ease.

## Perfect for Travel

LifeChoice® Activox® 4L is FAA-approved for domestic and international airline travel. With unmatched battery life and unique delivery technology to keep you saturated whether your home or away, LifeChoice® Activox® 4L is the perfect travel companion for active oxygen users.

## Peace-of-Mind Operation

As a tank-free solution, you never have to worry about running out of oxygen. Recharge the battery at home or on the go—even while you're using it! Simple controls adjust the settings while clearly stated alarm and charging notifications keep you informed during operation. The LifeChoice® Activox® 4L also features an advanced oxygen sensor to let you know when purity levels change. The advanced transfective display, as shown below, makes for easy viewing in bright sunlight.

## Innovative Auto Mode and PULSE-WAVE® Technology

The LifeChoice® Activox® 4L features powerful Auto Mode and PULSE-WAVE® technologies which work together to keep you saturated around the clock.

Auto Mode detects changes to your breath rate and automatically adjusts the delivery of oxygen, while PULSE-WAVE® Technology delivers that oxygen to you in a manner that is congruent with your breath rate so that all of the oxygen dose is received. This type of delivery is gentle and helps minimize uncomfortable side effects associated with other forms of oxygen delivery such as dry nose and nose bleeds.
