

GO!

MOBILITY

NOVA Transport Chairs and Wheelchairs **bring people together** with the best features and quality in the mobility world.

FRAME STRENGTH

NOVA Transport Chairs and Wheelchairs are made with the highest quality materials and workmanship. They are backed by our Limited Lifetime Warranty.

BEST BRAKES

Whether it is the locking hand brakes on some models or wheel locks on others - NOVA has the best brakes around!

UPHOLSTERY

You can see and definitely feel the difference with NOVA's seating upholstery. The material is attractive and comfortable, the craftsmanship is excellent, and the quality will last through life's many adventures.

FOOTRESTS

All NOVA Transport Chairs and Wheelchairs come with swing away, removable footrests. They are easy to adjust and durable for resting the unique shapes and sizes of our feet.

THE EXTRAS

With a NOVA, you get the Extras as standard that come at an additional cost with other brands. Our 6000 series Reclining and 7000 series Lightweight Wheelchairs come standard with Anti-Tippers and all Transport Chairs come standard with seat belts.

Tips for choosing your NOVA Transport Chair or Wheelchair

What's the main difference between a Wheelchair and a Transport Chair?

Wheelchairs can be self-propelled by the user and also pushed by the companion. The large 24" rear wheels with rims allow the user to self-propel. This feature does add more weight and bulk to the wheelchair. Transport chairs have smaller rear wheels (8" & 12") so the user cannot self-propel and can only be pushed by the companion. Thus, the transport chair is both lighter and more compact than a wheelchair.

The Brakes - Who's in Control? (Option for Transport Chairs)

Some NOVA Transport Chairs come with both rear wheel locks and locking hand brakes at the companion handles. This allows the companion to control both the speed of the ride and ability to park the brake. This is a great option (& promotes safety) for those bumpy or hilly terrains. Make sure to have your seat belt on!

Weight and Width Matter!

Be sure to understand and match the weight capacity and the seat width of the transport chair or wheelchair to the weight and general size of the user. You should also carefully consider the actual weight and size of the wheelchair or transport chair, especially if there are lots of events and adventures in the plans.

RIDE IN STYLE

Choose the color and options that compliment your own personal tastes and lifestyle. Add a Leopard Mobility Clutch for your cell phone, a Flashlight Attachment for the evening, a Butterfly Mobility Bag for your important belongings, and a Cup Holder for your favorite beverages!

 *A great value!*

COMES STANDARD

- Carbon steel hammertone frame
- Fixed, full-length arms
- Quick release fold-down back
- Locking rear wheels
- Non-skid foot plates & heel loops
- Foldable

OPTIONS

- Travel Bag
