

## What is the Knee Walker?

The **NOVA Knee Walker** is an excellent mobility device for foot or ankle injuries when the affected area cannot bear weight or has limited weight bearing precautions. It can be a great long or short term alternative to crutches or folding walkers that can have adverse effects, such as back or under arm pain from extended use. The Knee Walker allows the user to maintain an active and more independent lifestyle which will help him/her progress to a quicker recovery.

## Features

- Oversized, contoured padded platform pads (comfortable & long lasting)
- Durable, anatomical synthetic rubber handles
- Steering assembly allows the user to easily maneuver & helps maintain better stability
- Large 8" wheels provide a smooth ride over uneven surfaces
- Locking hand brakes provide speed control & allows user to stay in a single position without rolling during everyday tasks
- Quickly adjusts for right or left leg injuries
- Easy-to-fold-down steering column is convenient for transport and compact storage
